

Azacitidine(Vidaza) Catalog No. A10105

Quick Overview

Azacitidine is a chemical analogue of the cytosine nucleoside used in DNA and RNA that is mainly used in the treatment of myelodysplastic syndrome (MDS)..

Product Information

Catalog Num	A10105
M. Wt	244.2
Formula	C ₈ H ₁₂ N ₄ O ₅
Solubility	DMSO
Purity	>98%
Storage	at -20°C 2 years
CAS No.	320-67-2
Synonyms	5-azacytidine, Mylosar, Ladakamycin, Vidaza
Chemical Name	4-amino-1-β-D-ribofuranosyl-1,3,5-triazin-2(1H)-one

All Adooq products are for laboratory research use only at a qualified research institution, and is not for private individual, patient nor veterinary use.

Return Policy

Adooq Bioscience has Satisfaction Guarantee return policy. You may return/exchange any items within 365 days from the original purchase date if you are not satisfied with your purchase, either for protocol related or product related problems.

>>This offer is only valid for products purchased directly from Adooq and its authorized distributors.

>>Prior to returning any items, please contact the Customer Service to obtain a Return/Exchange Authorization. Items returned without prior authorization may not be accepted. Any items returned to Adooq should be in the original packaging and in the same condition as originally purchased.
