

Anti-bTIMP-1 monoclonal antibody purified mouse IgG

This is a purified mouse monoclonal antibody to bovine tissue inhibitor of metalloproteinases-1 (bTIMP-1).

Product No. DFK-F-23-EX
Clone No. 7-6C1
Subclass / type IgG1 / kappa
Specificity / The antibody specifically reacts with bTIMP-1.
Immunogen

Species	human	mouse	rat	rabbit	Other
Reactivity	(+)	(-)	(+) ⁴⁾	NT	bovine (+)

NT; not tested

Applications (reference concentration)	Western Blotting	2 µg / mL ⁴⁾
	Paraffin Sections	30 - 50 µg / mL ⁴⁾
	Frozen Sections	NT
	EIA	available ²⁾

NT; not tested Optimal working dilutions must be determined by end user.

Concentration 500 µg / mL
Presentation Liquid in 0.1M Na-Phosphate buffer, pH7.0, with 0.5 % protease-free BSA and 0.05 % sodium azide.
Volume 1 mL
Storage Maintain at 2-8 °C in undiluted aliquots for up to 12 months. Do not freeze.
