Ras-Related Protein Ral-A (RALA) Antibody

Catalogue No.: abx000750

Western blot analysis of extracts of various cell lines, using RALA antibody (abx000750) at 1/1000 dilution.

RALA Antibody is a Rabbit Polyclonal antibody against RALA. The product of this gene belongs to the small GTPase superfamily, Ras family of proteins. GTP-binding proteins mediate the transmembrane signaling initiated by the occupancy of certain cell surface receptors. This gene encodes a low molecular mass ras-like GTP-binding protein that shares about 50% similarity with other ras proteins. [provided by RefSeq, Jul 2008].

Target: RALA

Reactivity: Mouse, Rat

Host: Rabbit

Clonality: Polyclonal

Tested Applications: WB

Recommended dilutions: WB: 1/500 - 1/2000. Optimal dilutions/concentrations should be determined by the end user.

Immunogen: Recombinant protein of human RALA.

Purification: Affinity purified.

Form: Liquid

Isotype: IgG

Conjugation: Unconjugated

Storage: Aliquot and store at -20 °C. Avoid repeated freeze/thaw cycles.

Molecular Weight: Calculated MW: 23 kDa
Observed MW: 24 kDa

Swiss Prot: [P11233](#)

GeneID:	<u>5898</u>
Gene Symbol:	RALA
Concentration:	> 1 mg/ml
Buffer:	PBS, pH 7.3, 0.02% sodium azide, 50% glycerol.
Note:	This product is for research use only.
