Vitronectin (VTN) Antibody

Catalogue No.: abx001401

Immunohistochemistry of paraffin-embedded mouse lung using VTN antibody (abx001401) at dilution of 1/100 (40x lens).

VTN Antibody is a Rabbit Polyclonal antibody against VTN. The protein encoded by this gene is a member of the pexin family. It is found in serum and tissues and promotes cell adhesion and spreading, inhibits the membrane-damaging effect of the terminal cytolytic complement pathway, and binds to several serpin serine protease inhibitors. It is a secreted protein and exists in either a single chain form or a clipped, two chain form held together by a disulfide bond. [provided by RefSeq, Jul 2008].

Target:	VTN
Reactivity:	Mouse
Host:	Rabbit
Clonality:	Polyclonal
Tested Applications:	IHC

Recommended dilutions: IHC: 1/50 - 1/100. Optimal dilutions/concentrations should be determined by the end user.

Immunogen:	Recombinant protein of human VTN.
Purification:	Affinity purified.
Form:	Liquid
Isotype:	IgG
Conjugation:	Unconjugated
Storage:	Aliquot and store at -20 °C. Avoid repeated freeze/thaw cycles.
Molecular Weight:	Calculated MW: 54 kDa
Swiss Prot:	P04004

GeneID: [7448](#)

Gene Symbol: VTN

Concentration: > 1 mg/ml

Buffer: PBS, pH 7.3, 0.02% sodium azide, 50% glycerol.

Note: This product is for research use only.
