Coxsackievirus And Adenovirus Receptor (CXADR) Antibody

Catalogue No.: abx001505

Western blot analysis of extracts of various cell lines, using CXADR antibody (abx001505) at 1/1000 dilution.

CXADR Antibody is a Rabbit Polyclonal antibody against CXADR. The protein encoded by this gene is a type I membrane receptor for group B coxsackieviruses and subgroup C adenoviruses. Several transcript variants encoding different isoforms have been found for this gene. Pseudogenes of this gene are found on chromosomes 15, 18, and 21.
