Kruppel Like Factor 5, Intestinal (KLF5) Antibody

Catalogue No.: abx002173

Western blot analysis of extracts of various cell lines, using KLF5 antibody (abx002173) at 1/1000 dilution.

KLF5 Antibody is a Rabbit Polyclonal antibody against KLF5. This gene encodes a member of the Kruppel-like factor subfamily of zinc finger proteins. Since the protein localizes to the nucleus and binds the epidermal growth factor response element, it is thought to be a transcription factor.
