Interferon-Inducible Double-Stranded RNA-Dependent Protein Kinase Activator A (PRKRA) Antibody

Catalogue No.: abx004150

Western blot analysis of extracts of mouse liver, using PRKRA antibody (abx004150) at 1/1000 dilution.

PRKRA Antibody is a Rabbit Polyclonal antibody against PRKRA. This gene encodes a protein kinase activated by double-stranded RNA which mediates the effects of interferon in response to viral infection. Mutations in this gene have been associated with dystonia. Alternative splicing results in multiple transcript variants.

Target: PRKRA

Reactivity: Human, Mouse, Rat

Host: Rabbit

Clonality: Polyclonal

Tested Applications: WB, IHC

Recommended dilutions: WB: 1/500 - 1/2000, IHC: 1/50 - 1/200. Optimal dilutions/concentrations should be determined by the end user.

Immunogen: Recombinant protein of human PRKRA.

Purification: Affinity purified.

Form: Liquid

Isotype: IgG

Conjugation: Unconjugated

Storage: Aliquot and store at -20 °C. Avoid repeated freeze/thaw cycles.

Molecular Weight: Calculated MW: 31 kDa/33 kDa/34 kDa
Observed MW: 35 kDa

Swiss Prot: [O75569](#)

GeneID: [8575](#)

Gene Symbol: PRKRA

Concentration: > 1 mg/ml

Buffer: PBS, pH 7.3, 0.02% sodium azide, 50% glycerol.

Note: This product is for research use only.
