## Phospholipid Transfer Protein (PLTP) Antibody

Catalogue No.: abx004303

Western blot analysis of extracts of various cell lines, using PLTP antibody (abx004303) at 1/1000 dilution.

PLTP Antibody is a Rabbit Polyclonal antibody against PLTP. The protein encoded by this gene is one of at least two lipid transfer proteins found in human plasma. The encoded protein transfers phospholipids from triglyceride-rich lipoproteins to high density lipoprotein (HDL). In addition to regulating the size of HDL particles, this protein may be involved in cholesterol metabolism. At least two transcript variants encoding different isoforms have been found for this gene.
