Death-Associated Protein Kinase 1 (DAPK1) Antibody

Catalogue No.: abx004391

Western blot analysis of extracts of various cell lines, using DAPK1 Antibody (abx004391) at 1/1000 dilution.

DAPK1 Antibody is a Rabbit Polyclonal antibody against DAPK1. Death-associated protein kinase 1 is a positive mediator of gamma-interferon induced programmed cell death. DAPK1 encodes a structurally unique 160-kD calmodulin dependent serine-threonine kinase that carries 8 ankyrin repeats and 2 putative P-loop consensus sites. It is a tumor suppressor candidate. Alternative splicing results in multiple transcript variants.
