ETS Translocation Variant 1 (ETV1) Antibody

Catalogue No.: abx005419

Western blot analysis of extracts of various cell lines, using ETV1 antibody (abx005419) at 1/1000 dilution.

ETV1 Antibody is a Rabbit Polyclonal antibody against ETV1. This gene encodes a member of the ETS (E twenty-six) family of transcription factors. The ETS proteins regulate many target genes that modulate biological processes like cell growth, angiogenesis, migration, proliferation and differentiation. All ETS proteins contain an ETS DNA-binding domain that binds to DNA sequences containing the consensus 5'-CGGA.
