Bovine Serum Albumin (BSA) Antibody

Catalogue No.: abx015700

Western blot analysis using BSA antibody against BSA.

Bovine serum albumin (BSA) is used in variety of laboratories products which contain BSA as a stabilizer. BSA could be detected for the indication of remains of chemical derivatives from animal products. This antibody is a good reagent that may be used for the development of detection assay in ELISA or western blot to test the remaining BSA for clinical products in Vivo or research products In Vitro.

Target: BSA

Reactivity: Cow

Host: Mouse

Clonality: Monoclonal

Tested Applications: ELISA, WB

Recommended dilutions: ELISA: 1/10000, WB: 1/500 - 1/2000. Optimal dilutions/concentrations should be determined by the end user.

Immunogen: Bovine serum albumin.

Purification: Purified antibody

Isotype: IgG₁

Conjugation: Unconjugated

Storage: Aliquot and store at -20 °C. Avoid repeated freeze/thaw cycles.

GeneID: [280717](#)

Concentration: 1.0 mg/ml

Buffer: PBS containing 0.03% sodium azide.

Note: This product is for research use only.
