## **Biotin Antibody**

Catalogue No.: abx020694

Biotin Antibody is a Mouse monoclonal antibody for assay detection and miscellaneous reagents against Biotin.

|                               |                                                                         |
|-------------------------------|-------------------------------------------------------------------------|
| <b>Target:</b>                | Biotin                                                                  |
| <b>Host:</b>                  | Mouse                                                                   |
| <b>Clonality:</b>             | Monoclonal                                                              |
| <b>Recommended dilutions:</b> | Optimal dilutions/concentrations should be determined by the end user.  |
| <b>Purification:</b>          | Purified from Mouse                                                     |
| <b>Form:</b>                  | Liquid                                                                  |
| <b>Isotype:</b>               | IgG <sub>1</sub>                                                        |
| <b>Conjugation:</b>           | Unconjugated                                                            |
| <b>Storage:</b>               | Aliquot and store at -20 °C. Avoid repeated freeze/thaw cycles.         |
| <b>Buffer:</b>                | Buffer contains NaN <sub>3</sub> as a preservative.                     |
| <b>Directions for use:</b>    | Centrifuge before opening to ensure complete recovery of vial contents. |
| <b>Note:</b>                  | This product is for research use only.                                  |
