Vitronectin (VTN) Antibody

Catalogue No.: abx025471

The protein encoded by this gene is a member of the pexin family. It is found in serum and tissues and promotes cell adhesion and spreading, inhibits the membrane-damaging effect of the terminal cytolytic complement pathway, and binds to several serpin serine protease inhibitors. It is a secreted protein and exists in either a single chain form or a clipped, two chain form held together by a disulfide bond. This antibody is supplied as crude ascites.

Target: VTN

Reactivity: Human

Host: Mouse

Clonality: Monoclonal

Tested Applications: WB

Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Immunogen: Human VTN.

Purification: Mouse Monoclonal Antibody (Mab) supplied as crude ascites.

Isotype: IgM

Conjugation: Unconjugated

Specificity: This VTN antibody is generated from mice immunized with a KLH conjugated synthetic peptide between 352-379 amino acids from human VTN.

Storage: Aliquot and store at -20 °C. Avoid repeated freeze/thaw cycles.

Swiss Prot: [P04004](#)

Buffer: Mouse monoclonal antibody supplied in crude ascites with 0.09% (W/V) sodium azide.

Note: This product is for research use only.
