BAD (pS111) Antibody

Catalogue No.:abx032119

BAD promotes cell death. Successfully competes for the binding to Bcl-X (L), Bcl-2 and Bcl-W, thereby affecting the level of heterodimerization of these proteins with BAX. Can reverse the death repressor activity of Bcl-X (L), but not that of Bcl-2. Appears to act as a link between growth factor receptor signaling and the apoptotic pathways.
