Human Helicobacter Pylori IgG (Hp-IgG) ELISA Kit

Catalogue No.: abx053259

Helicobacter Pylori IgG ELISA Kit is an ELISA kit against Helicobacter Pylori IgG.

Target: Helicobacter Pylori IgG

Reactivity: Human

Tested Applications: ELISA

Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Validity: The validity for this kit is 6 months.

Storage: Store at 2°C to 8°C upon receipt.

Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.

Standard Form: Lyophilized

ELISA Detection: Colorimetric

ELISA Data: Qualitative

Sample Type: Serum, plasma, culture media and other biological fluids.

Note: This product is for research use only.
Please note that our ELISA and CLIA kits are optimised for detection of native samples, rather than recombinant proteins. We are unable to guarantee detection of recombinant proteins, as they may have different sequences or tertiary structures to the native protein.
