Human Apolipoprotein B-100 Protein

Catalogue No.: abx060870

Human Apolipoprotein B-100 Protein is a purified lipoprotein. This protein is from Human Plasma. It does not contain Apo(a), Apo C or Apo E proteins. Cross-reacts with anti-LDL.

Target:	Human Apolipo B-100
Origin:	Human
Host:	Human
Purification:	Purified as follows: 1.Ultracentrifugation at d 1.03-1.05. 2.Delipidation with diethyl ether:ethanol (3:1). 3.Gel filtration over Sephacryl S-200.
Form:	Liquid
Conjugation:	Unconjugated
Storage:	Store at 2-8 °C. Do not freeze.
Concentration:	2.1 mg/ml (BCA Method)
Buffer:	200 mM Tris, 2 mM Sodium Decyl Sulfate, pH 8.25.
Directions for use:	Centrifuge before opening to ensure complete recovery of vial contents.
Note:	This product is for research use only.
