Zika Virus NS1 Protein

Catalogue No.: abx061380

The NS1 (non-structural protein 1) is a large, highly conserved protein.

Target:	Zika Virus NS1
Host:	Insect
Tested Applications:	ELISA, LF
Purity:	> 85% (SDS-PAGE)
Purification:	Purified from insect cells by affinity chromatography.
Form:	Liquid
Specificity:	Reacts with both IgG and IgM
Storage:	Store at -20°C. Avoid repeated freeze/thaw cycles.
Expression:	Recombinant
Sequence:	The amino acid sequence is proprietary.
Tag:	His tag.
Concentration:	3.7 mg/ml
Buffer:	Phosphate Buffered Saline, pH 7.4
Directions for use:	Centrifuge before opening to ensure complete recovery of vial contents.
Note:	This product is for research use only.
