Cellulase from Aspergillus niger

Catalogue No.: abx082478

Cellulase from Aspergillus niger is an enzyme.

Target: Cellulase from Aspergillus niger

Form: Lyophilized (Yellow Powder)

Reconstitution: Reconstitute in Water or PBS (pH 5.0-5.5), then centrifuge and take the supernatant.

Conjugation: Unconjugated

CAS Number: 9012-54-8

Storage: Store between 2-8 °C.

Molecular Weight: 52-61 kDa

Biological Activity: 3 units/mg

Note: This product is for research use only.
