Phospholipase D

Catalogue No.: abx089255

Phospholipase D (Type VII) is an enzyme isolated from *Streptomyces* sp.

Target: Phospholipase D

Origin: Bacteria

Host: Bacteria

Form: Lyophilized

Storage: Store at -20 °C.

Expression: Native

Biological Activity: ≥ 150 units/mg solid

One unit will liberate 1.0 µmol of choline from 1,2-Dioleoyl-sn-glycero-3-phosphocholine per hour at pH 8.0 at 37 °C.

Note: This product is for research use only.
