Phenylethanolamine A Rapid Test Kit (Colloidal gold)

Catalogue No.: abx092044

Phenylethanolamine A Rapid Test Kit (Colloidal gold) is a Rapid Test Kit against Phenylethanolamine A. Detection method: Immunochromatographic. Assay type: Competitive.

Target: Phenylethanolamine A

Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Sensitivity: 3 ppb

Validity: The validity for this kit is 12 months.

Storage: Store at 2-30 °C.

Sample Type: Urine.

Note: This product is for research use only.

Please note that our kits are optimised for detection of native samples, rather than recombinant proteins. We are unable to guarantee detection of recombinant proteins, as they may have different sequences or tertiary structures to the native protein.
