## **hsa-mir-20a RT-PCR Detection Kit**

Catalogue No.: abx096041

hsa-mir-20a RT-PCR Detection Kit is used for the detection of mature miRNA hsa-mir-20a expression.

|                             |                                        |
|-----------------------------|----------------------------------------|
| <b>Target:</b>              | hsa-mir-20a                            |
| <b>Reactivity:</b>          | Human                                  |
| <b>Tested Applications:</b> | RT-PCR                                 |
| <b>Storage:</b>             | Store at -20°C for 6 months.           |
| <b>Note:</b>                | This product is for research use only. |
