

## **hsa-mir-212 Real-Time RT-PCR Detection and cel-mir-39-3p Calibration Kit**

Catalogue No.: abx097754

hsa-mir-212 Real-Time RT-PCR Detection and cel-mir-39-3p Calibration Kit is used for the detection of mature miRNA hsa-mir-212 expression normalized by cel-mir-39-3p.

|                             |                                        |
|-----------------------------|----------------------------------------|
| <b>Target:</b>              | hsa-mir-212                            |
| <b>Reactivity:</b>          | Human                                  |
| <b>Tested Applications:</b> | Real-time RT-PCR                       |
| <b>Storage:</b>             | Store at -20°C for 6 months.           |
| <b>Sample Type:</b>         | miRNA, Total RNA                       |
| <b>Note:</b>                | This product is for research use only. |
