High Pure dNTPs (2.5 mM)

Catalogue No.: abx098043

High Pure dNTPs with or without RNase is an equal molar solution of high quality dATP, dCTP, dGTP, and dTTP. Purity is up to 99%. It is suitable for PCR, qPCR, DNA sequencing and cDNA synthesis.

Target: High Pure dNTPs (2.5 mM)

Storage: Store at -20°C. Stable for 12 months from date of receipt.

Note: This product is for research use only.
