## **Fly First-Strand cDNA Synthesis SuperMix**

Catalogue No.: abx098858

Fly First-Strand cDNA Synthesis SuperMix provides high affinity to RNA template with fast extension rate. Reverse transcription can be completed within 5 minutes. Deficient RNase H activity to reduce RNA template degradation during the first-strand cDNA synthesis. Anchored Oligo(dT)18 Primer for higher yield and more full length cDNA. cDNA up to 12 kb.

**Target:** Fly First-Strand cDNA Synthesis SuperMix

**Storage:** Store at -20°C. Stable for 12 months from date of receipt.

**Note:** This product is for research use only. This product is shipped with dry ice.
