Tn5 DNA Library Prep Kit for Illumina (for 50 ng DNA)

Catalogue No.: abx098892

Tn5 DNA Library Prep Kit for Illumina is designed to prepare genomic DNA libraries compatible with the Illumina sequencers. In vitro adapter insertion and the DNA fragmentation are performed in a single tube. Sequencing-ready libraries can be prepared in 2 hours with only 50 ng of starting genomic DNA.

Target: Tn5 DNA Library Prep Kit for Illumina (for 50 ng DNA)

Storage: Store at -20 °C for one year.

Note: This product is for research use only.
