## **Mumps Virus Nucleoprotein Antibody**

Catalogue No.: abx120061

Mumps Virus Nucleoprotein Antibody is a Mouse Monoclonal antibody. Mumps Virus Nucleoprotein is a monoclonal antibody to infectious agents and toxins.

|                               |                                                                         |
|-------------------------------|-------------------------------------------------------------------------|
| <b>Target:</b>                | Mumps Virus Nucleoprotein                                               |
| <b>Host:</b>                  | Mouse                                                                   |
| <b>Clonality:</b>             | Monoclonal                                                              |
| <b>Tested Applications:</b>   | ELISA, IF/ICC                                                           |
| <b>Recommended dilutions:</b> | Optimal dilutions/concentrations should be determined by the end user.  |
| <b>Purification:</b>          | Purified from Ascites                                                   |
| <b>Form:</b>                  | Liquid                                                                  |
| <b>Conjugation:</b>           | Unconjugated                                                            |
| <b>Storage:</b>               | Store at 2-8 °C. Do not freeze.                                         |
| <b>Buffer:</b>                | Buffer contains NaN <sub>3</sub> as a preservative.                     |
| <b>Directions for use:</b>    | Centrifuge before opening to ensure complete recovery of vial contents. |
| <b>Note:</b>                  | This product is for research use only.                                  |
