Dual Specificity Mitogen-Activated Protein Kinase Kinase 1 (MKK1) Antibody

Catalogue No.: abx121518

Western blot analysis of MKK1 expression in HepG2 (A), NIH3T3 (B) whole cell lysates.

Immunohistochemical analysis of MKK1 staining in human prostate cancer formalin fixed paraffin embedded tissue section. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.0). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.
