## Human Tumor Necrosis Factor Receptor Superfamily Member 9 / CD137 (TNFRSF9) ELISA Kit

Catalogue No.: abx156741

Human Tumor Necrosis Factor Receptor Superfamily, Member 9 ELISA Kit is a ELISA Kit against Tumor Necrosis Factor Receptor Superfamily, Member 9.

Please note that this kit is also available as a CLIA Kit [abx492840](#).

|                               |                                                                                                                                                                                                                                                                                                                                                                               |

| <b>Target:</b>                | Tumor Necrosis Factor Receptor Superfamily, Member 9                                                                                                                                                                                                                                                                                                                          |
| <b>Reactivity:</b>            | Human                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Tested Applications:</b>   | ELISA                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Recommended dilutions:</b> | Optimal dilutions/concentrations should be determined by the end user.                                                                                                                                                                                                                                                                                                        |
| <b>Test Range:</b>            | 0.156 ng/ml - 10 ng/ml                                                                                                                                                                                                                                                                                                                                                        |
| <b>Sensitivity:</b>           | < 0.064 ng/ml                                                                                                                                                                                                                                                                                                                                                                 |
| <b>Validity:</b>              | The validity for this kit is 6 months.                                                                                                                                                                                                                                                                                                                                        |
| <b>Storage:</b>               | Store at 2°C to 8°C upon receipt.                                                                                                                                                                                                                                                                                                                                             |
| <b>Stability:</b>             | The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. |
| <b>Standard Form:</b>         | Lyophilized                                                                                                                                                                                                                                                                                                                                                                   |
| <b>ELISA Detection:</b>       | Colorimetric                                                                                                                                                                                                                                                                                                                                                                  |
| <b>ELISA Type:</b>            | Sandwich                                                                                                                                                                                                                                                                                                                                                                      |

**ELISA Data:** Quantitative

**Sample Type:** Serum, plasma, tissue homogenates and other biological fluids.

**Note:** This product is for research use only. The range and sensitivity is subject to change. Please contact us for the latest product information. For accurate results, sample concentrations must be diluted to mid-range of the kit. If you require a specific range, please contact us in advance or write your request in your order comments.
