Luteinizing Hormone (LH) Protein

Catalogue No.: abx160023

Luteinizing Hormone (LH) Protein is a recombinant protein produced in Mammalian Cell Line.

Target:	Luteinizing Hormone (LH)
Host:	Mammalian cells
Tested Applications:	CLIA
Purification:	Purified
Form:	Liquid
Storage:	Short term: Store at 2-8°C. Long term: Store at -20°C.
Expression:	Recombinant
Concentration:	838 IU/ml
Buffer:	Phosphate Buffered Saline, pH 7.4 + 0.1
Note:	This product is for research use only.
