Hepatitis C Virus Nucleocapsid (core) 22 kDa Protein

Catalogue No.: abx260248

Hepatitis C Virus Nucleocapsid (core) 22 kDa (recombinant) is a viral antigen from hepatitis c virus.

Target: HCV 22 kDa

Conjugation: Unconjugated

Specificity: Immunoreactive with sera of HCV-infected individuals.

Expression: Recombinant

Sequence: mstnkpqrk tkrntnrrpq dvkfpgvgqi vggvyllpr gprlgvratr ktsersqprg rrqpipkarr pegrtwaqpg ywpplygneg
