Pancreatic Polypeptide (31-36) (free acid)

Catalogue No.: abx265344

Pancreatic Polypeptide (31-36) (free acid) is a peptide.

Target: Pancreatic Polypeptide (31-36) (free acid)

Origin: Human

Conjugation: Unconjugated

Molecular Weight: 805

Molecular Formula: $C_{36}H_{60}N_{12}O_9$

Sequence: Leu-Thr-Arg-Pro-Arg-Tyr

Note: This product is for research use only.
