Crustacean Erythrophore Concentrating Hormone Peptide

Catalogue No.: abx265654

Crustacean Erythrophore Concentrating Hormone is a peptide.

Target: Crustacean Erythrophore Concentrating Hormone

Conjugation: Unconjugated

Molecular Weight: 930.04

Molecular Formula: $C_{45}H_{59}N_{11}O_{11}$

Sequence: Pyr-Leu-Asn-Phe-Ser-Pro-Gly-Trp-NH₂

Note: This product is for research use only.
