Annexin V / 7AAD Apoptosis Detection Kit (PE)

Catalogue No.: abx290009

Annexin V/7AAD Apoptosis Detection Kit (PE) with 7-ADD is a detection kit conjugated to PE for use with mammalian samples.

Target: Annexin V

Reactivity: General

Tested Applications: IF/ICC, FCM

Form: Liquid

Conjugation: PE

Storage: Store in the dark at 2-8 °C

Molecular Weight: 35.9 kDa

GeneID: [308](#)

Buffer: The conjugate is provided in liquid form in buffer containing Antibody Stabilizer, PBS, pH 7.4. 7AAD, PBS (pH 7.4). Annexin V Binding Buffer, 10 X, 50 ml. 0,1M Hepes/NaOH (pH 7.4) 1.4 M NaCl, 25 mM CaCl₂.

Note: This product is for research use only.
