## V-Myc Myelocytomatosis Viral Oncogene Homolog Phospho-Ser62 (MYC pS62) Antibody

Catalogue No.: abx329478

MYC (pS62) Antibody is a Rabbit Polyclonal against MYC (pS62).

|                               |                                                                                                                                                    |
|-------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Target:</b>                | MYC (pS62)                                                                                                                                         |
| <b>Reactivity:</b>            | Human, Mouse, Rat                                                                                                                                  |
| <b>Host:</b>                  | Rabbit                                                                                                                                             |
| <b>Modification:</b>          | Phosphorylation                                                                                                                                    |
| <b>Target Modification:</b>   | Ser62                                                                                                                                              |
| <b>Clonality:</b>             | Polyclonal                                                                                                                                         |
| <b>Tested Applications:</b>   | ELISA, WB, IHC, IF/ICC                                                                                                                             |
| <b>Recommended dilutions:</b> | WB: 1/500 - 1/2000, IHC: 1/100 - 1/300, IF: 1/200 - 1/1000, ELISA: 1/40000. Optimal dilutions/concentrations should be determined by the end user. |
| <b>Immunogen:</b>             | Synthesized peptide derived from human c-Myc around the phosphorylation site of S62.                                                               |
| <b>Purification:</b>          | Affinity Chromatography.                                                                                                                           |
| <b>Form:</b>                  | Liquid                                                                                                                                             |
| <b>Isotype:</b>               | IgG                                                                                                                                                |
| <b>Conjugation:</b>           | Unconjugated                                                                                                                                       |
| <b>Storage:</b>               | Aliquot and store at -20 °C. Avoid repeated freeze/thaw cycles.                                                                                    |
