## **Mitogen-Activated Protein Kinase 14 (MAPK14) Antibody (ATTO 594)**

Catalogue No.: abx445433

p38 Antibody (ATTO 594) is a Rabbit Polyclonal against p38.

|                               |                                                                                                              |
|-------------------------------|--------------------------------------------------------------------------------------------------------------|
| <b>Target:</b>                | p38                                                                                                          |
| <b>Reactivity:</b>            | Human, Mouse, Rat, Cow, Monkey, Rabbit, Pig, Dog, Hamster, Chicken, Sheep, Guinea pig                        |
| <b>Host:</b>                  | Rabbit                                                                                                       |
| <b>Clonality:</b>             | Polyclonal                                                                                                   |
| <b>Tested Applications:</b>   | WB, IHC, IF/ICC, IP                                                                                          |
| <b>Recommended dilutions:</b> | WB: 1/1000, IF/ICC: 1/100, IP: 1/250. Optimal dilutions/concentrations should be determined by the end user. |
| <b>Immunogen:</b>             | A 20 residue synthetic peptide based on the human p38 with the cysteine residue added and coupled to KLH     |
| <b>Purification:</b>          | Peptide Affinity Purified                                                                                    |
| <b>Conjugation:</b>           | ATTO 594                                                                                                     |
| <b>Specificity:</b>           | Detects ~43kDa.                                                                                              |
| <b>Storage:</b>               | Store at -20°C.                                                                                              |
| <b>Swiss Prot:</b>            | <a href="#">Q16539</a>                                                                                       |
| <b>NCBI Accession:</b>        | NP_001306.1                                                                                                  |
| <b>Concentration:</b>         | 1 mg/ml                                                                                                      |
| <b>Buffer:</b>                | PBS, pH 7.4, 50% glycerol, 0.09% sodium azide.                                                               |
| <b>Note:</b>                  | This product is for research use only.                                                                       |
