Amyloid Oligomers (A11) Antibody (Biotin)

Catalogue No.: abx446692

Amyloid Oligomers (A11) Antibody (Biotin) is a Rabbit Polyclonal against Amyloid.

Target:	Amyloid
Reactivity:	Human, Mouse, Rat, Eukaryote
Host:	Rabbit
Clonality:	Polyclonal
Tested Applications:	WB, IHC, IF/ICC, IP, ELISA
Recommended dilutions:	WB: 1/1000, IP: 1/1000. Optimal dilutions/concentrations should be determined by the end user.
Immunogen:	Synthetic molecular mimic of soluble oligomers
Purification:	Protein A Purified
Conjugation:	Biotin
Specificity:	Recognizes all types of amyloid oligomers. Appears to recognize a peptide backbone epitope that is common to amyloid oligomers, but is not found in native proteins, amyloidogenic monomer or mature amyloid fibrils.
Storage:	Store at -20°C.
Swiss Prot:	P05067
NCBI Accession:	NM_000484.2
Buffer:	PBS, 50% glycerol, 0.09% sodium azide
Note:	This product is for research use only.
