## Mouse Interleukin 6 Receptor (IL6R) Protein (Active)

Catalogue No.: abx651400

Interleukin 6 Receptor (IL6R) Protein (Active) is an active protein from Mouse.

|                           |                                                                                                             |
|---------------------------|-------------------------------------------------------------------------------------------------------------|
| <b>Target:</b>            | Interleukin 6 Receptor (IL6R)                                                                               |
| <b>Origin:</b>            | Mouse                                                                                                       |
| <b>Purity:</b>            | > 97%                                                                                                       |
| <b>Form:</b>              | Lyophilized                                                                                                 |
| <b>Conjugation:</b>       | Unconjugated                                                                                                |
| <b>Storage:</b>           | Store at 2-8 °C for up to one month. Store at -80 °C for up to one year. Avoid repeated freeze/thaw cycles. |
| <b>Molecular Weight:</b>  | 18.0 kDa (Predicted Molecular Mass), 18 kDa (Accurate Molecular Mass)                                       |
| <b>Swiss Prot:</b>        | <a href="#">P22272</a>                                                                                      |
| <b>Sequence Fragment:</b> | Ala52-Ala204                                                                                                |
| <b>Tag:</b>               | N-terminal His-tag                                                                                          |
| <b>Activity:</b>          | Active                                                                                                      |
| <b>Concentration:</b>     | Prior to lyophilization: 200 µg/ml                                                                          |
| <b>Buffer:</b>            | Prior to lyophilization: PBS, pH 7.4, containing 0.01% Sarcosyl, 1 mM DTT, 5% Trehalose and Proclin-300.    |
| <b>Note:</b>              | This product is for research use only.                                                                      |
