

**Anti-Human IL-33 Antibody**  
**Catalog # ABG10275****Specification**

---

**Anti-Human IL-33 Antibody - Product Information**

Application	<b>WB, IHC, E</b>
Reactivity	<b>Human</b>
Host	<b>Rabbit</b>
Clonality	<b>Polyclonal</b>

**Anti-Human IL-33 Antibody - Additional Information****Preparation**

Produced from sera of rabbits pre-immunized with highly pure (>98%) recombinant hIL-33 (human IL-33). Anti-Human IL-33 specific antibody was purified by affinity chromatography employing immobilized hIL-33 matrix.

**WesternBlot**

To detect hIL-33 by Western Blot analysis this antibody can be used at a concentration of 0.1 - 0.2 µg/ml. Used in conjunction with compatible secondary reagents the detection limit for recombinant hIL-33 is 1.5 - 3.0 ng/lane, under either reducing or non-reducing conditions.

**Sandwich**

To detect hIL-33 by sandwich ELISA (using 100µl/well antibody solution) a concentration of 0.5 - 2.0 µg/ml of this antibody is required. This antigen affinity purified antibody, in conjunction with BioGems's Biotinylated Anti-Human IL-33 (60-033BT) as a detection antibody, allows the detection of at least 0.2 - 0.4 ng/well of recombinant hIL-33.

**Immunohistochemistry**

This antibody stained formalin-fixed, paraffin-embedded sections of human breast malignant ductal adenocarcinoma. The recommended concentration is 0.125 µg/ml-0.25 µg/ml with an overnight incubation at 4°C. An HRP-labeled polymer detection system was used with a DAB chromogen. Heat induced antigen retrieval

with a pH 6.0 sodium citrate buffer is recommended. Optimal concentrations and conditions may vary.

**Neutralization**

To yield one-half maximal inhibition

[<strong>ND</strong><span

style="font-size:

16px;"><sub>50</sub></span>] of the

biological activity of Human IL-33 (1.0

ng/ml), a concentration of 0.2-0.4 µg/ml of

this antibody is required.

**Formulation**

A sterile filtered antibody solution was lyophilized from PBS, pH 7.2.

**Reconstitution**

Centrifuge vial prior to opening.

Reconstitute in sterile water to a

concentration of 0.1-1.0 mg/ml.

**Storage**

-20°C

**Precautions**

Anti-Human IL-33 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

**Anti-Human IL-33 Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.
