

SYP Antibody (C-term) (ascites)
Mouse Monoclonal Antibody (Mab)
Catalog # AM1945a

Specification

SYP Antibody (C-term) (ascites) - Product Information

| | |
|-------------------|--|
| Application | WB,E |
| Primary Accession | P08247 |
| Other Accession | P07825 , Q62277 , NP_003170.1 |
| Reactivity | Mouse |
| Predicted | Rat |
| Host | Mouse |
| Clonality | Monoclonal |
| Isotype | IgM |
| Calculated MW | 33845 |
| Antigen Region | 225-253 |

SYP Antibody (C-term) (ascites) - Additional Information

Gene ID 6855

Other Names

Synaptophysin, Major synaptic vesicle protein p38, SYP

Target/Specificity

This SYP antibody is generated from mice immunized with a KLH conjugated synthetic peptide between 225-253 amino acids from the C-terminal region of human SYP.

Dilution

WB~~1:100~4000

Format

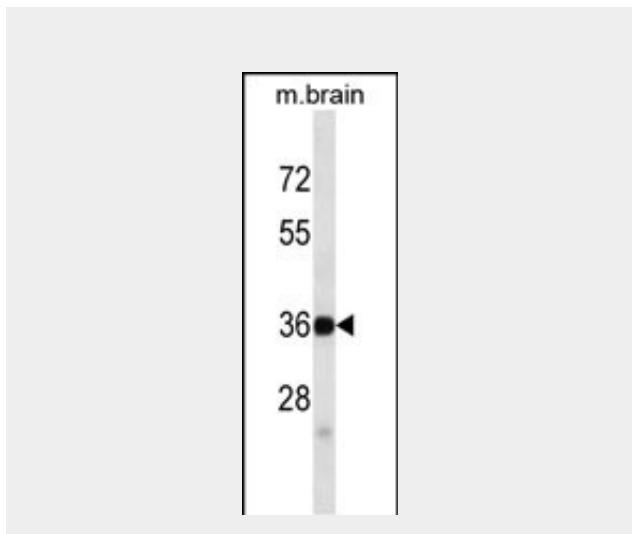

Mouse monoclonal antibody supplied in crude ascites with 0.09% (W/V) sodium azide.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

SYP Antibody (C-term) (ascites) is for research use only and not for use in

SYP Antibody (C-term) (Cat. #AM1945a) western blot analysis in mouse brain tissue lysates (35µg/lane). This demonstrates the SYP antibody detected the SYP protein (arrow).

SYP Antibody (C-term) (ascites) - Background

Synaptophysin (p38) is an integral membrane protein of small synaptic vesicles in brain and endocrine cells. [supplied by OMIM].

diagnostic or therapeutic procedures.

SYP Antibody (C-term) (ascites) - Protein Information**Name** SYP**Function**

Possibly involved in structural functions as organizing other membrane components or in targeting the vesicles to the plasma membrane. Involved in the regulation of short-term and long-term synaptic plasticity (By similarity).

Cellular Location

Cytoplasmic vesicle, secretory vesicle, synaptic vesicle membrane; Multi-pass membrane protein. Cell junction, synapse, synaptosome

Tissue Location

Expressed in the brain, with expression in the hippocampus, the neuropil in the dentate gyrus, where expression is higher in the outer half of the molecular layer than in the inner half, and in the neuropil of CA4 and CA3.

SYP Antibody (C-term) (ascites) - Protocols

Provided below are standard protocols that you may find useful for product applications.
