

**Actin (ACTB/ACTC) Antibody (N-term)**  
**Purified Rabbit Polyclonal Antibody (Pab)**  
**Catalog # AP1491a**

**Specification**

**Actin (ACTB/ACTC) Antibody (N-term) - Product Information**

|                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

**Actin (ACTB/ACTC) Antibody (N-term) - Additional Information**

**Gene ID 70**

**Other Names**

Actin, alpha cardiac muscle 1, Alpha-cardiac actin, ACTC1, ACTC

**Target/Specificity**

This Actin (ACTB/ACTC) antibody is

Confocal immunofluorescent analysis of Actin (ACTB/ACTC) Antibody (N-term)(Cat#AP1491a) with HeLa cell followed by Alexa Fluor 488-conjugated goat anti-rabbit IgG (green).DAPI was used to stain the cell nuclear (blue).

Western blot analysis of ACTB/ACTC Antibody (N-term) in mouse testis tissue lysates (35ug/lane). Target protein (arrow) was detected using the purified Pab.

generated from rabbits immunized with a KLH conjugated synthetic peptide between 38-67 amino acids from the N-terminal region of human Actin (ACTB/ACTC).

**Dilution**

IF~~1:10~50

WB~~1:1000

IHC-P~~1:10~50

**Format**

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS.

**Storage**

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

**Precautions**

Actin (ACTB/ACTC) Antibody (N-term) is for research use only and not for use in diagnostic or therapeutic procedures.

**Actin (ACTB/ACTC) Antibody (N-term) - Protein Information**

**Name** ACTC1

**Synonyms** ACTC

**Function**

Actins are highly conserved proteins that are involved in various types of cell motility and are ubiquitously expressed in all eukaryotic cells.

**Cellular Location**

Cytoplasm, cytoskeleton.

**Actin (ACTB/ACTC) Antibody (N-term) - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)

Formalin-fixed and paraffin-embedded human lung carcinoma tissue reacted with ACTB/ACTC antibody (N-term) (Cat.#AP1491a), which was peroxidase-conjugated to the secondary antibody, followed by DAB staining. This data demonstrates the use of this antibody for immunohistochemistry; clinical relevance has not been evaluated.

**Actin (ACTB/ACTC) Antibody (N-term) - Background**

Actins are highly conserved proteins that are involved in cell motility, structure, and integrity. ACTB/ACTC are nonmuscle cytoskeletal actins and major constituents of the contractile apparatus. Defects in ACTB are a cause of juvenile-onset dystonia. Defects in ACTC have been associated with idiopathic dilated cardiomyopathy (IDC) and familial hypertrophic cardiomyopathy (FHC).
