

LASP1 Antibody (Center)
Affinity Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP14992c

Specification

LASP1 Antibody (Center) - Product Information

Application	WB,E
Primary Accession	Q14847
Other Accession	NP_006139.1
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit Ig
Calculated MW	29717
Antigen Region	120-148

LASP1 Antibody (Center) - Additional Information

Gene ID 3927

Other Names

LIM and SH3 domain protein 1, LASP-1,
Metastatic lymph node gene 50 protein,
MLN 50, LASP1, MLN50

Target/Specificity

This LASP1 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 120-148 amino acids from the Central region of human LASP1.

Dilution

WB~1:1000

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

LASP1 Antibody (Center) is for research use only and not for use in diagnostic or

LASP1 Antibody (Center) (Cat. #AP14992c) western blot analysis in A549 cell line lysates (35ug/lane). This demonstrates the LASP1 antibody detected the LASP1 protein (arrow).

LASP1 Antibody (Center) - Background

This gene encodes a member of a LIM protein subfamily characterized by a LIM motif and a domain of Src homology region 3. The encoded protein functions as an actin-binding protein and possibly in cytoskeletal organization.

therapeutic procedures.

LASP1 Antibody (Center) - Protein Information

Name LASP1

Synonyms MLN50

Function

Plays an important role in the regulation of dynamic actin- based, cytoskeletal activities. Agonist-dependent changes in LASP1 phosphorylation may also serve to regulate actin-associated ion transport activities, not only in the parietal cell but also in certain other F-actin-rich secretory epithelial cell types (By similarity).

Cellular Location

Cytoplasm, cell cortex. Cytoplasm, cytoskeleton. Note=Associated with the F-actin rich cortical cytoskeleton.

LASP1 Antibody (Center) - Protocols

Provided below are standard protocols that you may find useful for product applications.
