

RHPN2 Antibody (Center)
Affinity Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP19291C

Specification

RHPN2 Antibody (Center) - Product Information

Application	WB,E
Primary Accession	Q8IUC4
Other Accession	NP_149094.3
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit Ig
Calculated MW	76993
Antigen Region	352-380

RHPN2 Antibody (Center) - Additional Information

Gene ID 85415

Other Names

Rhopilin-2, 76 kDa RhoB effector protein,
GTP-Rho-binding protein 2, p76RBE, RHPN2

Target/Specificity

This RHPN2 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 352-380 amino acids from the Central region of human RHPN2.

Dilution

WB~~1:1000

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

RHPN2 Antibody (Center) is for research use only and not for use in diagnostic or therapeutic procedures.

RHPN2 Antibody (Center)(Cat. #AP19291c) western blot analysis in T47D cell line lysates (35ug/lane).This demonstrates the RHPN2 antibody detected the RHPN2 protein (arrow).

RHPN2 Antibody (Center) - Background

This gene encodes a member of the rhophilin family of Ras-homologous (Rho)-GTPase binding proteins. The encoded protein binds both GTP- and GDP-bound RhoA and GTP-bound RhoB and may be involved in the organization of the actin cytoskeleton. [provided by RefSeq].

RHPN2 Antibody (Center) - Protein Information**Name** RHPN2**Function**

Binds specifically to GTP-Rho. May function in a Rho pathway to limit stress fiber formation and/or increase the turnover of F-actin structures in the absence of high levels of RhoA activity.

Cellular Location

Cytoplasm, perinuclear region

Tissue Location

Widely expressed. Highly expressed in prostate, trachea, stomach, colon, thyroid and pancreas. Expressed at lower level in brain, spinal cord, kidney, placenta and liver

RHPN2 Antibody (Center) - Protocols

Provided below are standard protocols that you may find useful for product applications.
