### **MTR1B Antibody - Protein Information**

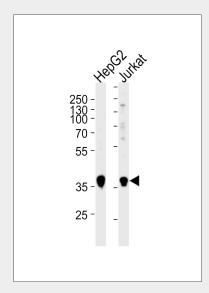

## Name MTNR1B

### **Function**

High affinity receptor for melatonin. Likely to mediate the reproductive and circadian actions of melatonin. The activity of this receptor is mediated by pertussis toxin sensitive G proteins that inhibit adenylate cyclase activity.

### **Cellular Location**

Cell membrane; Multi-pass membrane protein.

Western blot analysis of lysates from HepG2, Jurkat cell line (from left to right), using MTR1B Antibody(G399). G399 was diluted at 1:1000 at each lane. A goat anti-rabbit IgG H&L(HRP) at 1:5000 dilution was used as the secondary antibody. Lysates at 35ug per lane.

## **MTR1B Antibody - Background**
