

JLP (SPAG9) Antibody (N-term)
Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP7287a

Specification

JLP (SPAG9) Antibody (N-term) - Product Information

| | |
|-------------------|------------------------|
| Application | WB, IHC-P-Leica,E |
| Primary Accession | Q60271 |
| Other Accession | Q58A65 |
| Reactivity | Human |
| Predicted | Mouse |
| Host | Rabbit |
| Clonality | Polyclonal |
| Isotype | Rabbit Ig |
| Calculated MW | 146205 |
| Antigen Region | 91-120 |

JLP (SPAG9) Antibody (N-term) - Additional Information

Gene ID 9043

Other Names

C-Jun-amino-terminal kinase-interacting protein 4, JIP-4, JNK-interacting protein 4, Cancer/testis antigen 89, CT89, Human lung cancer oncogene 6 protein, HLC-6, JNK-associated leucine-zipper protein, JLP, Mitogen-activated protein kinase 8-interacting protein 4, Proliferation-inducing protein 6, Protein highly expressed in testis, PHET, Sperm surface protein, Sperm-associated antigen 9, Sperm-specific protein, Sunday driver 1, SPAG9, HSS, KIAA0516, MAPK8IP4, SYD1

Target/Specificity

This JLP (SPAG9) antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 91-120 amino acids from the N-terminal region of human JLP (SPAG9).

Dilution

WB~~1:2000

IHC-P-Leica~~1:250

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This

Anti-JLP (SPAG9) Antibody (N-term) at 1:2000 dilution + PC-3 whole cell lysate
Lysates/proteins at 20 µg per lane.
Secondary Goat Anti-Rabbit IgG, (H+L), Peroxidase conjugated at 1/10000 dilution.
Predicted band size : 146 kDa
Blocking/Dilution buffer: 5% NFDM/TBST.

Immunohistochemical analysis of AP7287a on paraffin-embedded human testis tissue was performed on the Leica® BOND RXm. Tissue was fixed with formaldehyde at room

antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

JLP (SPAG9) Antibody (N-term) is for research use only and not for use in diagnostic or therapeutic procedures.

JLP (SPAG9) Antibody (N-term) - Protein Information

Name SPAG9 ([HGNC:14524](#))

Function

The JNK-interacting protein (JIP) group of scaffold proteins selectively mediates JNK signaling by aggregating specific components of the MAPK cascade to form a functional JNK signaling module (PubMed:14743216). Regulates lysosomal positioning by acting as an adapter protein which links PIP4P1-positive lysosomes to the dynein-dynactin complex (PubMed:29146937). Assists PIKFYVE selective functionality in microtubule-based endosome-to-TGN trafficking (By similarity).

Cellular Location

Cytoplasm
{ECO:0000250|UniProtKB:Q58A65}.
Cytoplasm, perinuclear region
{ECO:0000250|UniProtKB:Q58A65}.
Lysosome membrane. Note=Perinuclear distribution in response to stress signals such as UV radiation
{ECO:0000250|UniProtKB:Q58A65}

Tissue Location

Expressed only in testis on the round spermatids of stage I, II and III. Absent in spermatogonia and spermatocyte [Isoform 3]: Expressed in testis.

temperature. Heat induced epitope retrieval was performed by EDTA buffer (pH9. 0). Samples were incubated with primary antibody(1:250) for 15min at room temperature. Leica Bond Polymer Refine Detection was used as the secondary antibody.

JLP (SPAG9) Antibody (N-term) - Background

SPAG9, which is abundantly expressed in testicular haploid germ cells, is recognized by sperm-agglutinating antibodies and implicated in infertility.
