

RHOH Antibody (monoclonal) (M03)
Mouse monoclonal antibody raised against a full length recombinant RHOH.
Catalog # AT3638a

Specification

RHOH Antibody (monoclonal) (M03) - Product Information

Application	E
Primary Accession	Q15669
Other Accession	BC014261
Reactivity	Human
Host	mouse
Clonality	Monoclonal
Isotype	IgG2a Kappa
Calculated MW	21331

RHOH Antibody (monoclonal) (M03) - Additional Information

Gene ID 399

Other Names

Rho-related GTP-binding protein RhoH,
GTP-binding protein TTF, Translocation
three four protein, RHOH, ARHH, TTF

Target/Specificity

RHOH (AAH14261.1, 1 a.a. ~ 191 a.a)
full-length recombinant protein with GST
tag. MW of the GST tag alone is 26 KDa.

Format

Clear, colorless solution in phosphate
buffered saline, pH 7.2 .

Storage

Store at -20°C or lower. Aliquot to avoid
repeated freezing and thawing.

Precautions

RHOH Antibody (monoclonal) (M03) is for
research use only and not for use in
diagnostic or therapeutic procedures.

RHOH Antibody (monoclonal) (M03) - Protocols

Provided below are standard protocols that you
may find useful for product applications.

Detection limit for recombinant GST tagged
RHOH is approximately 1ng/ml as a capture
antibody.

RHOH Antibody (monoclonal) (M03) - Background

The protein encoded by this gene is a member
of the Ras superfamily of small GTPases.
Expression of a chimeric transcript of LAZ3 and
this gene has been reported as a result of the
translocation t(3;4) in non-Hodgkin's
lymphomas. This gene encodes a small G-like
protein, and unlike most other small G proteins
which are expressed ubiquitously, this gene is
transcribed only in hemopoietic cells.
