OR6K6 Antibody (C-term) Blocking peptide
Synthetic peptide
Catalog # BP13262b

Specification

OR6K6 Antibody (C-term) Blocking peptide - Product Information

Primary Accession   Q8NGW6

OR6K6 Antibody (C-term) Blocking peptide - Additional Information

Gene ID 128371

Other Names
Olfactory receptor 6K6, Olfactory receptor OR1-21, OR6K6

Target/Specificity
The synthetic peptide sequence used to generate the antibody AP13262b was selected from the C-term region of OR6K6. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format
Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage
Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions
This product is for research use only. Not for use in diagnostic or therapeutic procedures.

OR6K6 Antibody (C-term) Blocking peptide - Protein Information
Name OR6K6

Function
Odorant receptor.

OR6K6 Antibody (C-term) Blocking peptide - Background

Olfactory receptors interact with odorant molecules in thenose, to initiate a neuronal response that triggers the perceptionof a smell. The olfactory receptor proteins are members of a largefamily of G-protein-coupled receptors (GPCR) arising from singlecoding-exon genes. Olfactory receptors share a 7-transmembranedomain structure with many neurotransmitter and hormone receptorsand are responsible for the recognition and G protein-mediatedtransduction of odorant signals. The olfactory receptor gene familyis the largest in the genome. The nomenclature assigned to theolfactory receptor genes and proteins for this organism isindependent of other organisms.

OR6K6 Antibody (C-term) Blocking peptide - References

Malnic, B., et al. Proc. Natl. Acad. Sci. U.S.A. 101(8):2584-2589(2004)

Cellular Location
Cell membrane; Multi-pass membrane
protein.
