FBXL19 Antibody (C-term) Blocking Peptide

Synthetic peptide
Catalog # BP18447b

Specification

FBXL19 Antibody (C-term) Blocking Peptide - Product Information

Primary Accession Q6PCT2

FBXL19 Antibody (C-term) Blocking Peptide - Additional Information

Gene ID 54620

Other Names
F-box/LRR-repeat protein 19, F-box and leucine-rich repeat protein 19, FBXL19, FBL19

Format
Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage
Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions
This product is for research use only. Not for use in diagnostic or therapeutic procedures.

FBXL19 Antibody (C-term) Blocking Peptide - Protein Information

Name FBXL19

Synonyms FBL19

Function
Substrate-recognition component of the SCF (SKP1-CUL1-F-box protein)-type E3 ubiquitin ligase complex (By similarity). Binds to DNA containing unmethylated cytidine-phosphate-guanosine (CpG) dinucleotides (PubMed:<a href="http://www.uniprot.org/citations/29276034"

FBXL19 Antibody (C-term) Blocking Peptide - Background

Members of the F-box protein family, such as FBXL19, arecharacterized by an approximately 40-amino acid F-box motif. SCFcomplexes, formed by SKP1 (MIM 601434), cullin (see CUL1; MIM603134), and F-box proteins, act as protein-ubiquitin ligases.F-box proteins interact with SKP1 through the F box, and theyinteract with ubiquitination targets through other proteininteraction domains (Jin et al., 2004 [PubMed 15520277]).[suppliedby OMIM].
