

LIFR Blocking Peptide (C-term)

Synthetic peptide

Catalog # BP21029c

Specification**LIFR Blocking Peptide (C-term) - Product Information**Primary Accession [P42702](#)**LIFR Blocking Peptide (C-term) - Additional Information**

Gene ID 3977

Other Names

Leukemia inhibitory factor receptor, LIF receptor, LIF-R, CD118, LIFR

Target/Specificity

The synthetic peptide sequence is selected from aa 1021-1035 of HUMAN LIFR

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

LIFR Blocking Peptide (C-term) - Protein Information

Name LIFR

Function

Signal-transducing molecule. May have a common pathway with IL6ST. The soluble form inhibits the biological activity of LIF by blocking its binding to receptors on target cells.

LIFR Blocking Peptide (C-term) - Background

Signal-transducing molecule. May have a common pathway with IL6ST. The soluble form inhibits the biological activity of LIF by blocking its binding to receptors on target cells.

Cellular Location

[Isoform 1]: Cell membrane; Single-pass
type I membrane protein

LIFR Blocking Peptide (C-term) - Protocols

Provided below are standard protocols that you
may find useful for product applications.
