

ILKAP Polyclonal Antibody
Catalog # AP70530**Specification**

ILKAP Polyclonal Antibody - Product Information

Application	WB, IHC-P, IF
Primary Accession	Q9H0C8
Reactivity	Human, Mouse, Rat, Monkey
Host	Rabbit
Clonality	Polyclonal

ILKAP Polyclonal Antibody - Additional Information**Gene ID** 80895**Other Names**

ILKAP; Integrin-linked kinase-associated serine/threonine phosphatase 2C; ILKAP

Dilution

WB~~Western Blot: 1/500 - 1/2000. Immunohistochemistry: 1/100 - 1/300. Immunofluorescence: 1/200 - 1/1000. ELISA: 1/20000. Not yet tested in other applications.

IHC-P~~N/A

IF~~1:50~200

Format

Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.09% (W/V) sodium azide.

Storage Conditions

-20°C

ILKAP Polyclonal Antibody - Protein Information**Name** ILKAP**Function**

Protein phosphatase that may play a role in regulation of cell cycle progression via dephosphorylation of its substrates whose appropriate phosphorylation states might be crucial for cell proliferation. Selectively associates with integrin linked kinase (ILK), to modulate cell adhesion and growth factor signaling. Inhibits the ILK-GSK3B signaling axis and may play an important role in inhibiting oncogenic transformation.

Cellular Location

Cytoplasm.

Tissue Location

Widely expressed. Highest levels expressed in striated muscle. Much lower levels evident in various smooth muscle tissues.

ILKAP Polyclonal Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.
