# ABclonal®

## **ApoE Rabbit pAb**

Catalog No.: A12400

## **Basic Information**

#### **Observed MW**

Refer to figures

#### **Calculated MW**

36kDa

#### **Category**

Polyclonal Antibody

### **Applications**

**ELISA** 

### **Cross-Reactivity**

Human, Mouse, Rat

## **Background**

The protein encoded by this gene is a major apoprotein of the chylomicron. It binds to a specific liver and peripheral cell receptor, and is essential for the normal catabolism of triglyceride-rich lipoprotein constituents. This gene maps to chromosome 19 in a cluster with the related apolipoprotein C1 and C2 genes. Mutations in this gene result in familial dysbetalipoproteinemia, or type III hyperlipoproteinemia (HLP III), in which increased plasma cholesterol and triglycerides are the consequence of impaired clearance of chylomicron and VLDL remnants.

## **Recommended Dilutions**

## **Immunogen Information**

**Gene ID**348

Swiss Prot
P02649

### **Immunogen**

A synthetic peptide corresponding to a sequence within amino acids 190-304 of human ApoE (NP\_000032.1).

## **Synonyms**

AD2; LPG; APO-E; ApoE4; LDLCQ5; ApoE
